

Photography

1. The photographer may take pictures before and after the service in any part of the building except offices and classrooms.
2. It is a good idea to provide the photographer with a typed list of all the pictures you want taken on the Wedding Day. This list should be given to the photographer prior to the Wedding Day to minimize the amount of time spent gathering people for pictures.
3. Flash pictures are NOT allowed during the wedding ceremony except during the processional and recessional.
4. Webster Gardens recommends the video camera be placed either in the balcony or at the side of the Sanctuary, as instructed by the Wedding Coordinator. No photographs or taping may be done from the chancel area. Any moving around distracts from your marriage service.
